

Ways down the rabbit hole

- ▶ Publish one of your projects to GitHub
- ▶ Make a PR to a project you like (you'll first need to find out about PRs beforehand)
- ▶ Find out about rebasing (a.k.a. rewriting history, what used to be forbidden)
- ▶ Explore the Git ecosystem (CI; CD; Verification; etc.)
- ▶ learngitbranching.js.org
- ▶ Git Fu Developing
 - ▶ `git bisect` is especially cool!
- ▶ Awesome Git (big link list)
